SUMMARY

Software Engineer with 1+ year of experience in frontend development using React.js, Next.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Experienced in building responsive web applications, developing reusable components, integrating REST APIs, and collaborating with teams in an Agile environment. Committed to writing clean, maintainable code and continuously improving software quality and user experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript (Basic), C++, Python (Basic)

Frontend: React.js, Next.js, Redux (Basic), Tailwind CSS, Bootstrap, Responsive & Mobile-First Web Design, Figma-to-Code Conversion

Database: MongoDB (Basic), MySQL, Database Design Fundamentals

Tools & Platforms: Git, GitHub, VS Code

EXPERIENCE

Software Engineer Trainee

May 2024 – Present

Cluster Computing, Nagpur, Maharashtra

- Developed and maintained responsive, production-grade web applications using React.js, Next.js, JavaScript, HTML5, CSS3, and Tailwind CSS, serving real end users across multiple client projects.
- Architected reusable and modular UI components following component-based design principles, reducing duplicate code by an estimated 30% and significantly improving long-term maintainability.
- Integrated multiple REST APIs to fetch, display, and manage dynamic application data, implementing robust loading states, error boundaries, and graceful fallback handling for a smoother user experience.
- Optimized application responsiveness, load times, and cross-browser compatibility across desktop, tablet, and mobile devices, ensuring consistent behavior on Chrome, Firefox, Edge, and Safari.
- Collaborated closely with UI/UX designers to convert Figma designs into pixel-perfect, fully responsive web interfaces, iterating quickly based on design feedback.
- Debugged complex frontend issues, refactored legacy code, and improved overall application performance, stability, and user experience.

PROJECTS

Coffee Shop Landing Page

[GitHub](#)

Next.js · React.js · Tailwind CSS · JavaScript

- Developed a modern, fully responsive coffee shop landing page using Next.js, React.js, JavaScript, and Tailwind CSS.
- Built reusable UI components including Hero, About, Menu, Gallery, Testimonials, and Contact sections for improved code reusability.
- Implemented responsive layouts with Tailwind CSS, ensuring a consistent user experience across desktop, tablet, and mobile devices.
- Optimized application performance using reusable React components, clean folder structure, and efficient rendering techniques.
- Followed modern frontend development practices to improve maintainability, scalability, and overall code quality.

Task Management Application

[GitHub](#)

React.js · JavaScript · CSS3 · Local Storage

- Developed a responsive task management application using React.js to efficiently create, update, delete, and organize daily tasks.
- Implemented complete CRUD functionality with Local Storage to preserve task data across browser sessions.
- Built reusable React components and managed application state using React Hooks (useState and useEffect).
- Designed a clean, responsive, and user-friendly interface with optimized layouts for desktop and mobile devices.
- Improved code maintainability by following component-based architecture and clean coding best practices.

CERTIFICATIONS & ACHIEVEMENTS

HackerRank Software Engineer Certificate

EDUCATION

Bachelor of Technology (B.Tech) — Artificial Intelligence and Data Science

2021 – 2025

S.B. Jain Institute of Technology, Management & Research, Nagpur, Maharashtra

CGPA: 8/10
